

Goals of CAULLT grant

- To create a micro-credential taxonomy/framework for Foundations of Learning and Teaching utilising the CAULLT benchmarking results
- To utilise the IRUA institutions as a pilot study for the taxonomy/framework implementation
- To establish a CAULLT Advisory Committee to monitor the usefulness of the taxonomy across institutions
- To produce a micro-credential taxonomy for Foundations of Learning and Teaching adaptable for Australian and New Zealand institutions

Project Team

- **Lead team:** Maree Dinan-Thompson (JCU), Simon Bedford (WSU), Ruth Bridgstock (Griffith), Amani Bell (IRUA)
- **Members:** Andrea Lynch, Rob Fitzgerald/Bopelo Boitshwarelo (CDU) , Liz Branigan (LaTrobe), Shannon Johnston (Murdoch), Ann Luzeckyj (Flinders), Jude Williams (Griffith), Gina Saliba (WSU)
- **Advisory Team members:** Abby Cathcart (QUT), Barbie Panther (Deakin), Gayle Morris (NZ)
- **Project Administration:** Anita Suleman (JCU)

What about potential for teaching quality to be added to performance criteria?
Impact on professional development?

- Nomenclature
- Design – applicability, personalisation and flexibility, unbundling, RPL, blockchain, scaffolding within and across, volume of learning?
 - Sequencing of learning – core/elective, foundation/advanced, breadth/depth
- Validity and portability of credential – issues of consistency
- Assessment – competency or GPA or both
- Pedagogy – chunking, scaffolding? (aggregation), gamification, varied
- Platforms, digital credentials (badges), e-Portfolio

Proposals for consideration – CAULLT survey

1. Universities Australia consults with all Australian universities to **seek consensus** on a national Australian teaching standards framework, which can be used to underpin teaching quality within institutions; **and agree a number of standards which will support an Australian L&T recognition scheme.**
2. Universities Australia (or another organisation or individual on their behalf) investigates and seeks an approach to developing the original proposal by Sally Kift to the DVCA group for a **national Australian L&T recognition scheme which is governed by a national L&T organisation**, with consideration of **funding** required to implement the scheme.
3. Membership of the national L&T organisation **requires all member universities to implement or confirm annual L&T professional learning requirements** for teaching staff.
4. The resulting teaching standards framework **be contextualised for Australia with reference to our Aboriginal and Torres Strait Islander people.** Significant consultation is carried out to achieve this.
5. Those who complete assessed programs which meet the standard(s) **achieve national recognition. All Australian universities will recognise the completion of such a program at another university.**
6. **Universities Australia develops a teaching standards framework which can be met by all universities.**

HESF – Domain 3 Teaching – excerpt

- .. academic teaching staff must be qualified to at least one level of qualification (AQF level or equivalent) higher than the course of study being taught, or have equivalent relevant academic or professional or practice-based experience and expertise
- ...requirements include knowledge of contemporary developments in the field they are teaching (which is informed by continuing scholarly activity), skills in teaching, learning and assessment relevant to the needs of the student cohorts involved, and a qualification at least one level higher than is awarded for the course of study, or equivalent experience.

TEL: There are also specific requirements in the Standards:

- concerning access to electronic information (Standard 2.1.2)
- for supporting interactions among students outside of formal teaching (Standard 2.1.3) such as group work
- for safety and support services (Section 2.3)
- for access to learning resources and educational support, and for maintaining contact with off-campus students (Section 3.3).

The requirements for course design (Section 3.1) will need to take into account pedagogical principles that are consistent with the needs of learners and TEL, and there are implications for teaching staff in so far as they need to be equipped for a TEL role (see for example, Standard 3.2.3).

CORE agreements for Educators in Higher Education Framework

- AQF
 - Knowledge

Framework – taxonomy – *current thoughts*

- Framework - a basic structure underlying a system, concept, or text. A frame or structure composed of parts fitted and joined together.
- Taxonomy - a classification into ordered categories

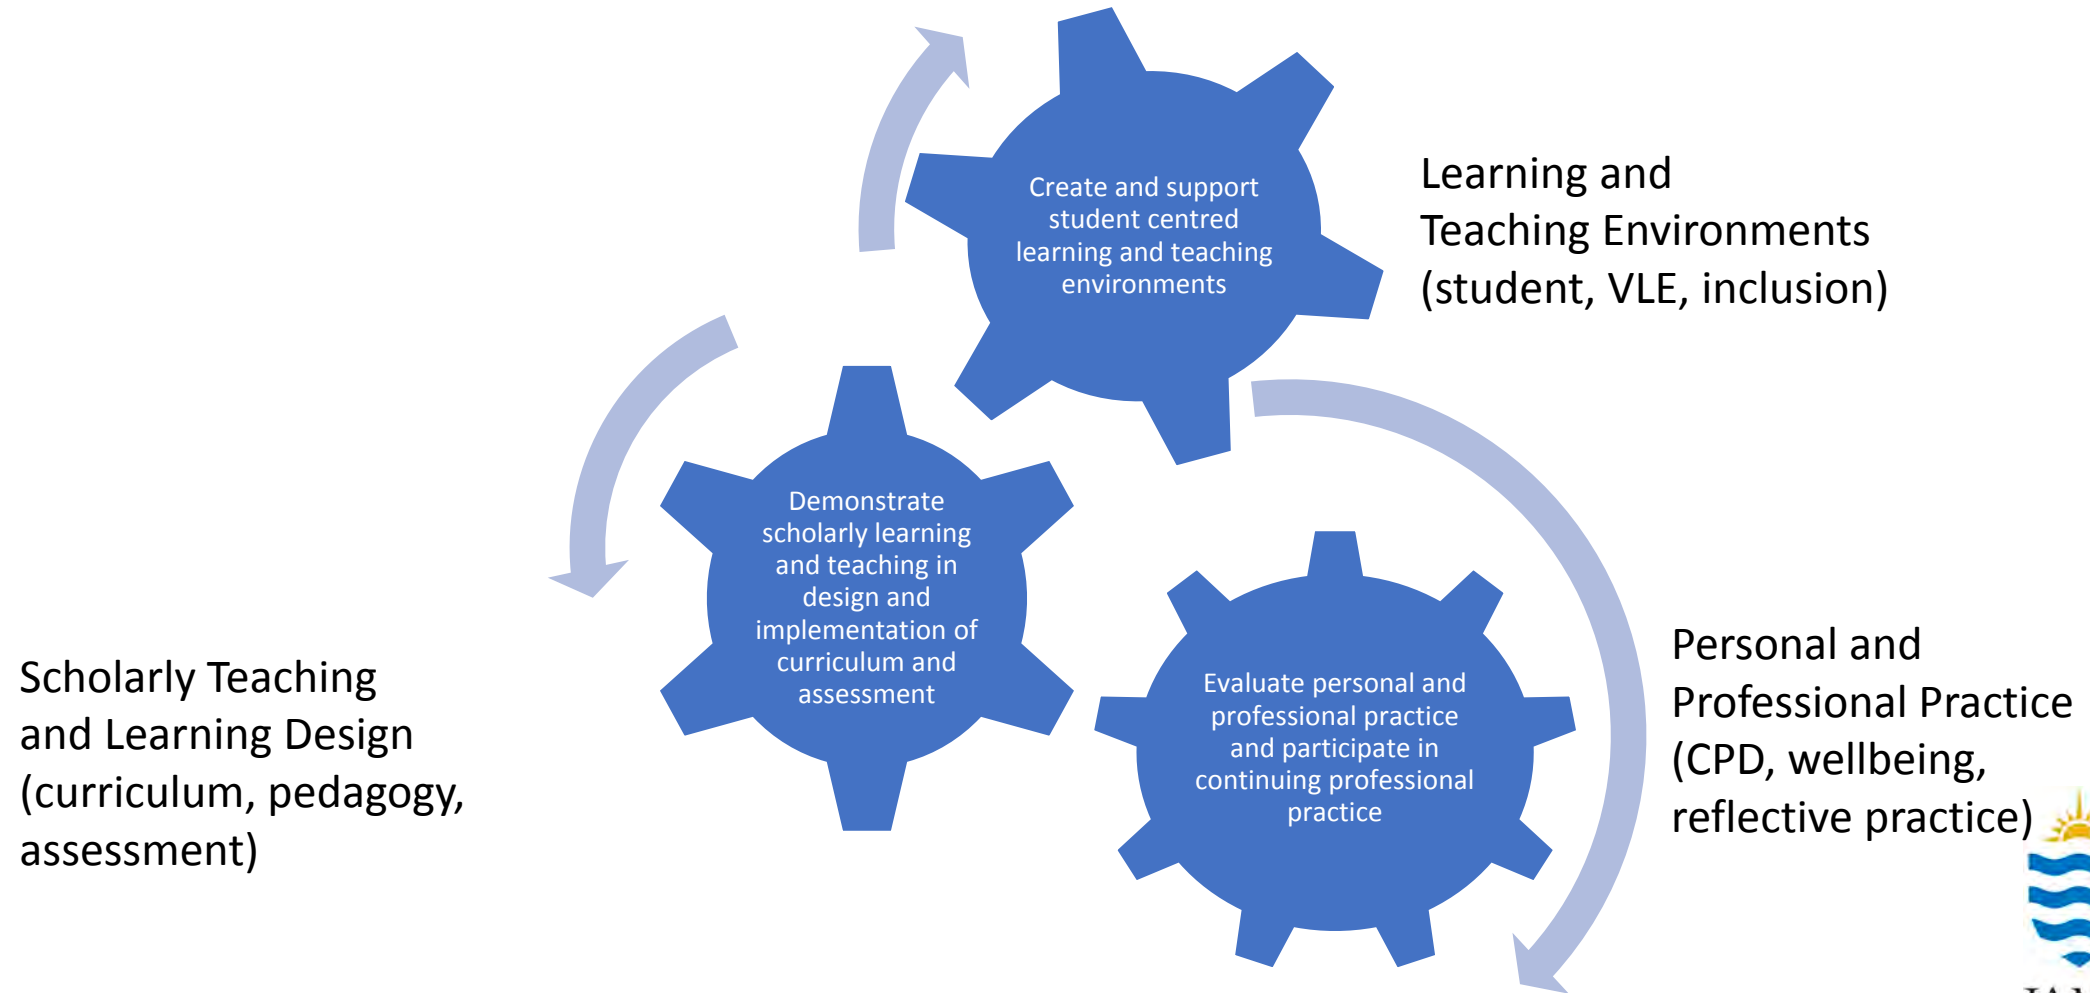

Possible taxonomy- AQF8
